

§ 4022.21

29 CFR Ch. XL (7–1–01 Edition)

The actuarial assumptions used shall be those described in § 4044.52, except that—

(1) *Loading for expenses.* There shall be no adjustment to reflect the loading for expenses;

(2) *Mortality rates and interest assumptions.* The mortality rates in appendix A to this part and the interest assumptions in appendix B to this part shall apply; and

(3) *Date for determining lump sum value.* The date as of which a lump sum value is calculated is the termination date, except that in the case of a subsequent insufficiency it is the date described in section 4062(b)(1)(B) of ERISA.

(e) *Publication of lump sum rates.* The PBGC will provide two sets of lump sum interest rates as follows—

(1) In appendix B to this part, the lump sum interest rates for PBGC payments, as provided under paragraph (d)(2) of this section; and

(2) In appendix C to this part, the lump sum interest rates for private-sector payments.

[61 FR 34028, July 1, 1996, as amended at 63 FR 38306, July 16, 1998; 65 FR 14752, 14755, Mar. 17, 2000]

Subpart B—Limitations on Guaranteed Benefits

§ 4022.21 Limitations; in general.

(a)(1) Subject to paragraphs (b), (c) and (d) of this section, the PBGC will not guarantee that part of an installment payment that exceeds the dollar amount payable as a straight life annuity commencing at normal retirement age, or thereafter, to which a participant would have been entitled under the provisions of the plan in effect on the termination date, on the basis of his credited service to such date. If the plan does not provide a straight life annuity either as its normal form of retirement benefit or as an option to the normal form, the PBGC will for purposes of this paragraph convert the plan's normal form benefit to a straight life annuity of equal actuarial value as determined by the PBGC.

(2) The limitation of paragraph (a)(1) of this section shall not apply to:

(i) A survivor's benefit payable as an annuity on account of the death of a

participant that occurred before the plan terminates and before the participant retired;

(ii) A disability pension described in § 4022.6 of this part; or

(iii) A benefit payable in non-level installments that in combination with Social Security, Railroad Retirement, or workman's compensation benefits yields a substantially level income if the projected income from the plan benefit over the expected life of the recipient does not exceed the value of the straight life annuity described in paragraph (a)(1) of this section.

(b) The PBGC will not guarantee the payment of that part of any benefit that exceeds the limitations in section 4022(b) of ERISA and this subpart B.

(c)(1) Except as provided in paragraph (c)(2) of this section, the PBGC does not guarantee a benefit payable in a single installment (or substantially so) upon the death of a participant or his surviving beneficiary unless that benefit is substantially derived from a reduction in the pension benefit payable to the participant or surviving beneficiary.

(2) Paragraphs (a) and (c)(1) of this section do not apply to that portion of accumulated mandatory employee contributions payable under a plan upon the death of a participant, and such a benefit is a pension benefit for purposes of this part.

(d) The PBGC will not guarantee a benefit payable to other than natural persons, or a trust or estate for the benefit of one or more natural persons.

§ 4022.22 Maximum guaranteeable benefit.

Subject to section 4022B of ERISA and part 4022B of this chapter, benefits payable with respect to a participant under a plan shall be guaranteed only to the extent that such benefits do not exceed the actuarial value of a benefit in the form of a life annuity payable in monthly installments, commencing at age 65 equal to the lesser of the amounts computed in paragraphs (a) and (b) of this section.

(a) One-twelfth of the participant's average annual gross income from his employer during either his highest-paid five consecutive calendar years in which he was an active participant
